Title: edited in capitals, TNR 14, bold, alignment centered. The title should describe the abstract's content clearly and precisely. The title should not exceed 30 words on maximum 3 rows.

Authors: one space row down from the abstract title, edited in TNR 12, bold, alignment centered, as follows: author's first name in small letters followed by the family name in capitals. If there are more authors than one and belonging to various institutions, they have to be marked by 1, 2, etc. superscript for identifying the institutions they belong to (if all authors belong to one institution, they will be not marked). Please, do not mention academic title, scientific position etc. The presenting author must be underlined.

Institution: one space row down from the authors' name, TNR 12, alignment centered. The institutions will be marked by 1, 2, 3 etc. superscript, as mentioned before for authors. The institution name will be typed in small letters, alignment centered, followed by address: number, street, locality, country.

Corresponding author email: Please, mention the Corresponding author email, at one space row down from the name of institutions, edited in TNR 12, small letters, alignment centered and then two points, followed by the email address of the contact person, which will be edited in small letters and regular style (not in bold, not in italic and without hyperlinks).

Abstract: The text will be typed at two space rows down from the name of corresponding author, edited in TNR 12, in alignment justified, no indentation (the row starts right from the left margin) and minimum 200 and maximum 350 words (approximate 20 - 25 rows). All representative text has to be counted (text except title, authors, authors' affiliations and approval of ethical committee).

Abstract will concisely summarize the scientific study. It will provide a brief **INTRODUCTION** to the problem, a statement regarding the **MATERIALS AND METHODS** and a brief summary of **RESULTS AND DISCUSSIONS**. It is advisable not to include references, figures or tables, or citation of the reference in the abstract. Generally, the abstract will end with a comment on the significance of the results or a brief **CONCLUSION**.

Key words: one space row down from the abstract text, edited in TNR 10, as follows: Key words: edited in bold and italic characters, next two points and then maximum 5 representative words in alphabetical order in italics, no bold, alignment left, and dot at the end.

The abstracts, which involve **animal experimentation**, must include the number of approval as well as the name of the Ethical Committee that evaluated the experimental set-up, which are mandatory.
